Support**Explanation:**

The Animal Law Section supports SB 106, which would create a fundraising license plate to fund companion animal spay and neuter and the care of animals in Michigan shelters and rescues. Thanks in large part to the availability of sterilization surgery for companion animals, companion animal euthanasia has declined sharply in the U.S. since 1970, when Statista estimated that more than 23 million animal were euthanized. However, according to a report by Shelter Animals Count, 5.8 million animals entered U.S. shelters and rescues in 2024, and 607,000 of those were euthanized. This license plate would provide a much-needed source of funding to support the ongoing need for companion animal population control and care for homeless and abused animals in Michigan shelters and rescues.
